

# HOT TIPS

A Tip Sheet For Physical Educators

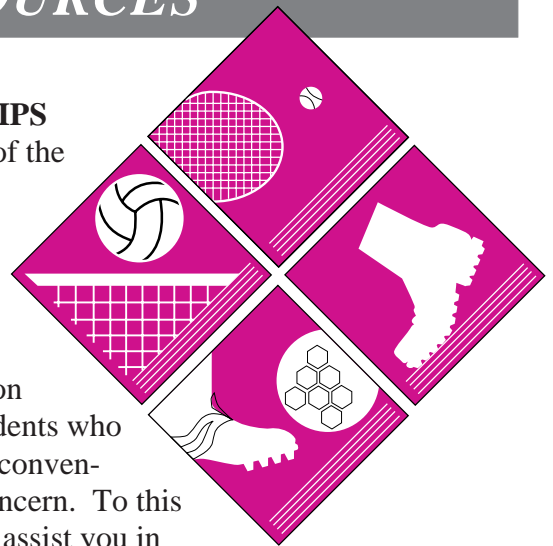

## Special Edition

### RESOURCES

This Special Edition of **HOT TIPS** is intended to make you aware of the many resources and services available to physical education teachers in AEA 10 through the Grant Wood AEA Adapted

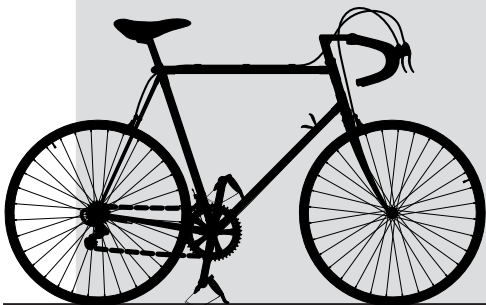

Physical Education Department and Media Center.

While traditionally, the GWAEA Adapted Physical Education Department has been concerned with working only with students who had an identified (labeled) handicapping condition, the new conventional wisdom dictates that the needs of all students be of concern. To this end, we have broadened the scope of service and are here to assist you in providing physical education programs which are inclusive, age-appropriate, and relevant to the needs of all students in your school. We are here to help!

#### Contained in this issue:

- Services provided by the Adapted Physical Education Department
- Which Adapted Physical Education Consultant is assigned to your school
- Materials available through the Adapted Physical Education Department
- Topical listing of journals, books, videos and other curriculum materials available in the GWAEA media center
